

Dear Friends of HVEF:

HVEF expands education for our kids. Your gift in 2009 will do more!

Great learning opportunities take place each day in our local classrooms. **HVEF** stands ready to help expand education for our local kids through innovative and creative programs.

Providing the best possible education to our kids requires more than the traditional classroom experience. That is why **HVEF** partners with teachers to expand education for the students in our schools. We do not fund core curriculum materials, but new experiences that teachers want to bring to their students. Since 1996, over 240 programs got their start because of **HVEF** support. Innovative projects in literacy, math, science, robotics, social behavior, visual and performing arts. Teachers who have received our grants say they would not be able to bring many of these experiences to our kids without our support...your support!

To reward the great ideas of our local teachers, our financial backing comes from individuals like you who make a charitable contribution. We do not accept public tax dollar support. With this letter, I am inviting you to make a gift to our 2009 annual fund. Your charitable contribution to **HVEF** will provide great learning opportunities for all the kids in our community this school year and into the future.

Please consider supporting us in 2009 with a **tax-deductible** annual fund gift. Support in the past has helped make a difference in our local classrooms! Your gift right now will allow **HVEF** to continue to expand education for our kids!

Sincerely,

James Allen Prokes
Parent & HVEF Chairperson

Your gift to HVEF qualifies as a charitable donation. HVEF is recognized as a 501 (c) 3 non-profit foundation by the Internal Revenue Service and serves the educational goals of HVS teachers and students.
